

Vici meeting, 21 April 2009

Present: Catholijn, Koen, Willem-Paul, Pascal, Alina, Dmytro

Agenda:

Alina: we had two focus groups:

- 15 school students (16-17 years old);
 - o students were a little bit skeptical about PN because
 - o Willem-Paul: probably young people tend to be conservative
- Over 50 women from Haags Vrouwen Netwerk (middle aged, well educated with a high social status, some of them come from business world)
 - o Very enthusiastic, but some with a negative view on PN, pointed out that it is important to have the right information and possibly detect deceptions, PN should advice on the right questions for the other party (a checklist), usability of PN is important (simple way to access info)
 - o Catholijn : this was an easy way to get big group of experiment participants, we can come back to this group in future

Alina: focus group questionnaires and movies are online:

- Alina and Catholijn will prepare an e-mail (English+Dutch) with a link to the questionnaires to spread along friends/colleagues/other. We will put then on Negotiation wiki and everybody can use them

Pascal: we visited and interviewed the Makelaarsland. They have a software that automizes the whole process of selling/buying house except the bidding phase. They probably have a lot of data but do they want to share it with us?

Catholijn: a new STW-officer visited me:

- Utilization is a high priority for STW
- User committee meeting can take place in December or as soon as we have something to show

Dmytro: working on two journal papers:

- Learning opponent's preferences in a single-session negotiation

Catholijn: we should re-design our main wiki page.

- Alina and Catholijn will have a look at a community web site for project management made at TBM faculty (Koen will send a link) and come up with a new proposal.
- Let's make a page about our project in the Wikipedia.org (see the Negotiation page). Dmytro will make the first attempt to prepare the content
- Make an About Us page in the Negotiation Wiki. Every project member is individually responsible for putting information about themselves.
- Add a link to mmi.tudelft.nl in the Negotiation wiki and vice versa.
- Invite Bart for the next Vici meeting to discuss the wiki

Willem-Paul: we are still looking for people to participate in the case studies (looking for job, buying house) . If someone has somebody on his/her mind, please let us know!
